Melbourne, KY 41059

Dear Anna,

The Campbell County Conservation District Board of Supervisors appreciates the opportunity to review and comment on the Ash Street Pump Station and Force main project of Sanitation District No. 1 of Northern Kentucky. The Board of Supervisors has researched and discussed the issue and found that permits from the Kentucky Division of Water have already been issued. They also found that the Nationwide Permit from the U. S. Army Corps of Engineers is in the final stage of review. Since the work will be done under a Nationwide Permit, rather than an Individual Permit, no public comment period is required for permitting from the U. S. Army Corps of Engineers.

The Campbell County Conservation District Board of Supervisors voted at their July 1 meeting to issue a letter to the U. S. Army Corps of Engineers recommending that their conditions to verify the permit include the hiring of an independent contractor to oversee the project, particularly the restoration of areas that would be affected by construction of the force main and pump station.

The Board of Supervisors also understands that there will be another opportunity for public comment on the project when permits are acquired and before funding is released for the project. The Board of Supervisors plans to have a representative present at this meeting.

We appreciate your diligence in trying to ensure that the natural and cultural resources of our community are protected. Please contact me if you have any questions or concerns about the board's decision.

Sincerely,

Ronald W. McCormick, Chairman
